American Cancer Society's  
2010 San Leandro Relay For Life  
Kick-Off Event

Join us to learn how you can get involved in the 2010 San Leandro Relay for Life.

What is Relay For Life?

The world's largest grassroots fundraising movement, Relay For Life mobilizes communities throughout the country to celebrate people who have battled cancer, remember loved ones lost, and provide participants with an opportunity to fight back against the disease. Relay For Life gives San Leandro a unique opportunity to contribute to the American Cancer Society's mission of saving lives, by helping people stay well, by helping them get well, by finding cures, and by fighting back. Residents who give their

time, energy and financial commitment to this exciting event are really standing up for our community and its pledge to join the fight.”

Relay For Life events are held overnight as individuals and teams camp out at an athletic track, park or other gathering area, with the goal of keeping at least one team member on the track or pathway at all times throughout the evening. The light and the darkness of the day and night parallel the physical effects, emotions, and mental state of a cancer patient while undergoing treatment. The San Leandro Relay for Life will take place at Burrell Field May 22-23. Teams conduct fundraising prior to the event and even on the day of Relay. Relay brings together friends, families, businesses, hospitals, schools, faith-based groups . . . people from all walks of life – all aimed at furthering the American Cancer Society’s efforts to create a world with less cancer and more birthdays. Join us at the KICK-OFF Event as San Leandro begins our 7<sup>th</sup> Relay season. We welcome survivors, caregivers, returning teams, NEW teams, and anyone who has been touched by cancer in any way. We’ll show Relay movies, have inspirational speakers and musical guests, honor cancer survivors and remember those we lost, as well as celebrate another birthday (with cake!) Activities run 4:30-6:00. Participants of the Kick Off can pick up VIP discounted passes to return to the theatre at 7:30 for a special viewing of the classic.....Casa Blanca Go to [www.relayforlife.org/sanleandroca](http://www.relayforlife.org/sanleandroca) for more information.

## WHAT ON EARTH ? INSIDE THE CROP CIRCLE MYSTERY

**Date: Saturday March: 13<sup>th</sup>**

**Doors Open:-----6:30pm**

**Time of Event:-----7:30pm**

**Tickets: \$10**

Filmmaker Suzanne Taylor is part of an international community of visionary artists, scientists, philosophers, geometers, educators, writers and farmers who marvel at crop circles. This documentary tracks her interactions with these 'croppies,' in England, where they converge every summer and go circle-chasing, indulge in circle-analysis, and talk about why they have changed their lives because of this phenomenon. A big question that's repeatedly addressed is why something so startling and so spectacular is so largely ignored. Croppies express their opinions and their frustrations about how the hoaxing of some circles, and the limitations on our thinking imposed by a worldview that's grounded in scientific materialism, deflect attention from the phenomenon and hamper serious investigation of it. Evidence is presented that defies the idea that the circles all are made by people, and the possible motives of the hoaxers is a subject for speculation.

The circles are looked at as art, as instigators to reexamine ancient knowledge lost to a culture separated from nature, and as coming from a source that is aware of us, delivering formations that point to events on Earth and in response to whims and wishes that individuals and groups express. The most startling revelations we get from the circles come from their shapes. Mathematical information encoded in the formations is seen to deliver a virtual curriculum in number and geometry, and leads to questions about who or what is delivering the circles and why they are being created. Croppies speculate about what the effect would be if it were ascertained that the circles aren't being made by us, whereby we'd know we aren't the only intelligent occupants of the cosmos. There is talk about how that likely would humble us to where we might think as a planet and work cooperatively to solve the problems we all share. We see that 'contact,' established via the circles, could create a new beginning for humanity – the start of an era when awe and wonder would supplant the dangerous oppositional behaviors that are so prevalent today.

**PLEASE NOTE:** After the movie, engage in a special question and answer session lead by **Dan Dillman**; don't miss this special event Saturday **March: 13<sup>th</sup>** at the "BAL Theatre" in San Leandro. # THE QUANTUM ACTIVIST

**Date: Saturday March: 20<sup>th</sup>**

**Doors Open:-----6:30pm**

**Time of Event:-----7:30pm**

**Tickets: \$10**

**Be prepared to take a discontinuous leap.**

*There is a revolution going on in science. A genuine paradigm shift.* While mainstream science remains materialist, a substantial number of scientists are supporting and developing a paradigm based on the primacy of consciousness. **Dr. Amit Goswami, Ph.D.**, a pioneer of this revolutionary new perspective within science shares with us his vision of the unlimited potential of consciousness as the ground of all being, and how this revelation can actually help us to live better.

The **Quantum Activist** tells the story of a man who challenges us to rethink our very notions of existence and reality, with a force and scope not felt since Einstein.

This film bridges the gap between God and Science. The work of Goswami, with stunning precision and without straying from the rigors of quantum mechanics, reveals the overarching unity inherent in the worlds major religions and mystical traditions.

Meet the man behind the message as Dr. Goswami tells how he moved away from the religious teachings of his childhood, to seek his path in nuclear and theoretical quantum physics, and how he has come full circle, through quantum insight, back to the very religious axioms offered as a youth. With a poignant relevance to the problems of our day this film follows Dr. Goswami as he demonstrates how our mistaken views of reality have led to our current environmental, social, economic and spiritual crisis; as well as the means of correcting these errors. At stake is nothing less than our survival upon the planet. The Quantum Activist is a film for our time. It is a film for all time. It is a film whose very subject transcends time.

Witty, profoundly insightful and colored with humor, the Quantum Activist brings you Amit Goswami's vision of the universe. Steeped in the verifiable facts of Quantum Mechanics, Dr. Goswami dares to pose the question, "***What are you doing to participate in the creation of the reality we all share?***" Amit has recently appeared in the blockbuster movie "*What the Bleep Do We Know?*", the award winning "*The Dalai Lama Renaissance*" and authored over a dozen books from textbooks on quantum mechanics to consciousness and the New Science.

**PLEASE NOTE:** After the movie, engage in a special question and answer session Lead by **Dan Dillman**. Don't miss this special event Saturday **March: 20<sup>th</sup>** at the "BAL Theatre" in San Leandro. ## SECRETS OF THE STONE TABLETS, IN SEARCH OF MONTEZUMA'S TREASURE

**Date:** **Saturday** March 27th

**Doors Open:**-----**6:30pm**

**Time of Event:**-----**7:30pm**

**Tickets:** **\$10**

*Secrets Of The Stone Tablets, In Search of Montezuma's Treasure* is one of the more fantastic archaeological stories of our time. After reading a 1964 Life Magazine article describing the mysterious Peralta Stone Tablets, Raymond Dillman launched himself into a lifelong campaign to decipher the stones and discover their original meanings and the treasures they pointed to.

Secrets of the Stone Tablets In Search Of Montezuma's Treasure is a new treasure-hunting documentary from Xzault Media Group that examines one family's quest for discovery and treasure. Apparently tapped for plot lines to the recent National Treasure sequel, the underlying story behind the Dillman family's search makes for an incredible modern-day treasure hunt tale, if not an incredible documentary. Covering the exploits and treasure digs of the Dillman family, this documentary seeks to further the theories of Raymond Dillman, declaring that the Peralta Stone Tablets were created by Cabeza de Vaca and Estevenico. Covering several archaeological digs in the American Southwest (including the Dillman family's 1982 dig in Utah that uncovered a fifth stone tablet, hundreds of skeletons, and numerous artifacts), Secrets of the Stone Tablets is something of a larger-than-life adventure story set in the 21st century. As Dan Dillman states in an interview during the film, "My grandfather set out looking for a treasure, but what he found was a quest."

**PLEASE NOTE:** After the movie, engage in a special question and answer session lead by **Dan Dillman**. Don't miss this special event Saturday March 27<sup>th</sup> at the "BAL Theatre" in San Leandro. This is one of many exciting documentaries, independent films and expos of all kinds of different genres. ## TREASON IN AMERICA THE COUNCIL ON FOREIGN RELATIONS

**Date:** **Saturday** April 3<sup>rd</sup>  
**Doors Open:**-----6:30pm  
**Time of Event:**-----7:30pm  
**Tickets:** \$10

Over the years, even the most naive American has had a diffuse suspicion that there must be a secret reason why, most of the time, our government helps our enemies and betrays our friends. Servando Gonzalez provides exhaustive evidence proving that the reason for this is because a group of rich, powerful individuals have conspired to infiltrate the U.S. Government and most of the American life.

Gonzalez shows how this corrupt organization operates, and what their plans are. He also provides ample information showing that, behind almost every act of treason committed against the peoples of the U.S., Latin America, and the world, there have been one or more CFR members.

Gonzalez explains how CFR's secret agents infiltrated in the U.S. Government manipulated President Truman to create the CIA and the National Security Council. According to Gonzalez, since its creation in 1947, the CIA has never served the interests of the American people, but of Wall Street bankers and oil transnational corporations. Gonzalez also shows that the NSC is a key element in understanding how the CFR conspirators, through selective flow of information, have gained almost total control over American presidents, treating them like mushrooms: keeping them in the dark and feeding them manure.

He shows graphic evidence of CFR conspirators in the NSC commanding the Commanders-in-Chief, and the reasons why, like in the cases of Korea and Vietnam, the Iraq war was lost even before it began.

Servando Gonzalez is the author of *The Secret Fidel Castro: Deconstructing the Symbol*, *The Nuclear Deception: Nikita Khrushchev and the Cuban Missile Crisis*, and *La madre de todas las conspiraciones: una novela de ideas subversivas* [in Spanish], all available at Amazon.com.

**PLEASE NOTE:** After the movie, engage in a special question and answer session lead by **Dan Dillman**; don't miss this special event **Saturday April 3<sup>rd</sup>** at the "BAL Theatre" in San Leandro.
